UIDSS

IMPACT ABSORBING
LOADING DOCK DOOR

Our Universal Integrated Dock Safety System* (UIDSS) can be configured to include the WIJ-T. This system provides the safest loading dock system possible. By forcing sequential operation, the WIJ-T and trailer restraints must be in place before the dock door or dock leveler can be used. We specifically designed this system to monitor itself and protect against human error providing the highest degree of protection for employees and equipment.

*Patent Pending
