1020 W. 14 MILE ROAD • CLAWSON, MI 48017 • PHONE 877- 436- 0302 • WWW.ADVANCEDSYSTEMSDOORS.COM

Increase Dock Safety with our Universal Accessory Panel

- Our Universal Accessory Panel integrates any type of door-dock leveler– truck restraint as a system
- UAP works with your existing controls, lights, and alarms
- One UAP can replace multiple control panels
- UAP can provide a fail safe loading dock
- UAP can improve OEM communications
- UAP minimizes human error by providing a forced sequential operation
- UAP works with equipment provide by any manufacturer
- UAP can provide automated door opening/closing. Eliminates human error, improves safety and security
- Security can be increased by individual door location monitoring
- Intelligent design allows the end user to customize the system to their specific needs
- Multiple input sensors can be used at each location
- Intelligent controls defend against human error. In “automatic-mode”, should a forced-open or close be attempted, the system will report the source of operation
- Optional built-in diagnostics minimizes repair time and maintenance. Should the systems detect a point-of-failure it alerts you via a digital display pinpointing the exact problem area
- Audible alarm
- Easily customized to integrated with production equipment
- Much more...
